

Fully Funded PhD Student Positions in the Faculty of Information at the University of Toronto

The Faculty of Information at the University of Toronto offers fully funded PhD student positions to study with Prof. Alessandro Delfanti in the areas of digital labour and countercultures. We are looking for outstanding students from all over the world to join our diverse network of passionate scholars in Toronto. The Faculty of Information has a unique, vibrant PhD program that studies the intersection of information, technology, people, and communities.

Prof. Delfanti holds a grant to research with workers who use generative AI in their labour, looking at changes in the ways human creativity is restructured by new technology. Delfanti is the author of *The Warehouse: Workers and Robots at Amazon* and is working on a book on technological refusal.

What the Faculty of Information Offers:

- Excellent career opportunities in a dynamic international research community
- A structured PhD program with innovative curriculum
- Challenging and cutting-edge research projects
- World-leading university in the heart of a vibrant, diverse city
- Individual supervision and mentoring by globally recognized faculty
- More than 70 distinguished and internationally recognized faculty
- Full funding for international and Canadian students
