

# Fully Funded PhD Student Positions in the Faculty of Information at the University of Toronto

The Faculty of Information at the University of Toronto offers fully funded PhD student positions to study with Prof. Aviv Shachak in the areas of Health Informatics and Health Professions Education in, and for, the digital era. We are looking for outstanding students from all over the world to join our diverse network of passionate scholars in Toronto. The Faculty of Information has a unique, vibrant PhD program that studies the intersection of information, technology, people, and communities.

Prof. Shachak and his group explore socio-technical issues related to the use of information and communication technology (ICT) in health, with the purpose of generating value-adding use and preventing negative unintended consequences. Much of this work centers on Health Professions Education, asking how we can prepare our current and future clinicians for an era in which ICT becomes an integral part of health care delivery. Dr. Shachak is cross-appointed with the [Institute of Health Policy, Management and Evaluation](#). He is a [Wilson Centre](#) scholar and a fellow of the International Academy of Health Sciences Informatics (IAHSI). His work has been published in various Health Informatics and Information Science Journals including *JAMIA*, *JMIR*, *Journal of Biomedical Informatics*, *JASIST*, and *International Journal of Medical Informatics*.

## What the Faculty of Information Offers:

- Excellent career opportunities in a dynamic international research community
- A structured PhD program with innovative curriculum
- Challenging and cutting-edge research projects
- World-leading university in the heart of a vibrant, diverse city
- Individual supervision and mentoring by globally recognized faculty
- More than 70 distinguished and internationally recognized faculty
- Full funding for international and Canadian students
