

Fully Funded PhD Student Positions in the Faculty of Information at the University of Toronto

The Faculty of Information at the University of Toronto offers fully funded PhD student positions to study with Prof. Shion Guha in the areas of Human-Computer Interaction, Responsible AI, AI Policy and Regulation, Public Interest Technology and related areas. We are looking for outstanding students from all over the world to join our diverse network of passionate scholars in Toronto. The Faculty of Information has a unique, vibrant PhD program that studies the intersection of information, technology, people, and communities.

Prof. Guha and the HCDS lab work on critical problems around AI fairness and biases in high-risk decision-making spaces such as child welfare, housing, higher education and public health. We publish in top HCI venues such as CHI/CSCW and premier disciplinary-focused journals e.g. CACM, JAMIA etc. This year we are looking for folks with a rigorous, computational or mathematical/statistical/econ background only. We are well funded through national (e.g. NSERC, CIFAR etc.) as well as industry grants. Our past alumni have been placed in academia (CMU, UW Madison, Oxford, CU Boulder), industry (Parkview Research, Abbot Labs etc.) and government (ON, WI etc.)

What the Faculty of Information Offers:

- Excellent career opportunities in a dynamic international research community
- A structured PhD program with innovative curriculum
- Challenging and cutting-edge research projects
- World-leading university in the heart of a vibrant, diverse city
- Individual supervision and mentoring by globally recognized faculty
- More than 60 distinguished and internationally recognized faculty
- Full funding for international and Canadian students
